2008 Historical Village Dusk to Dawn Event – 9-10 February 2008

How is this, competitors arriving & being set up before the Race Director? Is that keen or not?

The afternoon moved along very well with people arriving at a steady rate. Many unregistered competitors decided to come along considering the beautiful dry weather being experienced on the day. Yes dry, we went the whole event with not a drop, but instead a rather heavy dew & slightly cool morning.

Unfortunately we had a slight problem with no PA system. The President of the Historical Society Roger Dustan welcomed everyone & wished them well before handing the starting procedure over to the local Councillor, Greg Chippendale, who after a short speech continued with tradition by starting the event with the cow bell.

At the start line we had 59 enthusiastic athletes, consisting of solo runners, walkers, and relay members. In total for the whole event we had 118 entries, slightly down from the record breaking 127 last year. This was made up of 18 solo 12 hour competitors, 14 solo 6 hours, 2 x 50k entries, 2 x 12am -6am competitors, 22 x 6hour relay teams & 3 x 12hour teams.

The track was dry as stated earlier and must have been fast, for Nic Maloney took off setting a standard of running unmatched. His first hour of 26 laps was closely followed by Kelvin Marshall of 25 where they continued to battle it out until the fourth hour where strength & determination was showing through from John Pearson, Ron Schwebel & Danny Hooley. Still uncatchable, Nic continued setting the bench mark in being up 10 laps on second place, after 7 hours of running. Nic went on to win the 12 hour for 2008 and setting a new Historical Village Dusk to Dawn record of 126.075klms surpassing the 2007 record of Theiry Asselin by 1.62k.

Second place is owned by John Pearson with another great performance of 121.871k's, followed by another great battle between Ron Schwebel with 111.5k and Danny Hooley only 500mtrs behind (one lap)

Tina Fiegel was the sole lady entry. Knowing she struggled through the night with bad feet, she was still there at the finish to record a first.

We were all honored to a display of power walking or speed walking by Peter Bennett & Andrew Ludwig for near 7 hours, till Peter slowly worn down Andrew. They walked shoulder to shoulder for hours starting at 9kph, continuing to only drop a 1kph. Peter went on to walk 101k's, while Andrew achieved 93.026. Gentlemen, you were a pleasure to watch.

The 6 hour was eventful too with the chaps from the mountain taking the places. Brendon Gray was first with a great 6 hour run of 68klms followed by the strong and amazing Roger Guard with 66klms then closely behind in third position and trying to make up quick laps towards the end was Peter Hunt with 64.5klms.

This event amazes me with the strength of all the competitors. The ladies are never disappointing with this year being no exception. Four entered showing their strength & endurance. From on top of the big mountain again, Toowoomba lady Julie McCullum was the queen achieving 60.5klms from a great challenger of 60klms, Eleena Rosevear. Elizabeth Swain kept them moving by coming in third with 52k.

This year we had included the 50k & 100k challenge. Two ladies Angie Grattan & Alice Harris took on the 50k challenge, with Angie coming in first. Alice had her bad patches but stuck to her guns the complete the distance, well done.

Relays are always entertaining for the fast times in completing each lap. These people really travel fast. I know for the 2 hours I ran a young chap must have passed me seven times. Does that mean I am slow or he is fast? You can work that out. The relays were good value for there were the fast serious runners, casual runners, and the walkers. These teams are made of all men, all ladies or mixed, each of which enjoying themselves.

Thanks to all for coming to support the event. Not all expenses have been finalized yet but it is anticipated that a cheque to the Society of \$1500.00 will be forwarded.
Special thanks to Moreton Bay Road Runners, Wy Wurry Walkers, Galeforce 1 & 2 (Chris Gale) and Michael Schultz for your continued support in organizing teams for the event.

Thanks to The Historical Village Society for the venue & preparation, to all lapscorers & crew people, Michael Schultz for your devotion to time keeping & organizing a relay team, Endura for your great products, Woolworths Morayfield for the lapscorers refreshments & lastly to my wife Betty for your involvement & support.

Hope to see you all with your friends in 2009

Thank you
Geoff Williams
